PROFESSIONAL SUMMARY

IT Support Specialist with hands-on experience in system diagnostics, network troubleshooting, and infrastructure support within healthcare and NGO environments. Skilled in maintaining IT systems, resolving technical issues, and improving operational efficiency.

Demonstrates strong capability in **automation using Python**, building practical tools for system monitoring, network diagnostics, and maintenance. Adept at delivering user support, managing IT assets, and ensuring data security.

CORE COMPETENCIES

- IT Support & Technical Troubleshooting
- Network Support (LAN/WAN, TCP/IP, Wi-Fi)
- Hardware & Software Maintenance
- Windows System Administration
- System Diagnostics & Performance Monitoring
- Data Backup & Recovery
- Cybersecurity & Data Protection Practices
- IT Asset & Inventory Management
- User Support & Training
- Documentation & Reporting

PROJECTS

IT Support Toolkit (Python Automation Project)

🔗 https://github.com/masiga-tech/it-support-toolkit

Developed a Python-based toolkit to automate IT support and system diagnostics tasks.

- Built scripts to monitor system performance (CPU and memory usage)
- Implemented network diagnostics using socket connections and ping tests
- Automated disk cleanup processes to remove temporary files

- Handled real-world system constraints such as file locks and permission errors
- Documented project with structured README and visual outputs

Technologies: Python, psutil, OS modules

PROFESSIONAL EXPERIENCE

ICT Support / Technical Assistant

Webuye County & Referral Hospital
Jan 2024 – Dec 2024

- Provided IT support to 100+ users, resolving hardware, software, and network issues
- Diagnosed and resolved network connectivity issues, reducing downtime by 25%
- Performed preventive and corrective maintenance on IT equipment
- Supported server operations including monitoring, backups, and updates
- Implemented data protection practices and access control measures
- Installed and configured operating systems and applications
- Maintained IT documentation, logs, and reports
- Trained users, improving system adoption and efficiency

ICT Support Intern

AMREF Health Africa
Jun 2023 – Dec 2023

- Delivered first-line IT support for hardware, software, and connectivity issues
- Assisted with network troubleshooting and infrastructure support
- Supported system configuration and software deployment
- Managed ICT asset inventory tracking
- Promoted cybersecurity awareness and best practices
- Documented technical issues and resolutions

EDUCATION

Diploma in Information and Communication Technology (ICT)
Laikipia University | 2021 – 2024

KCSE
Teremi Boys High School | 2018 – 2021

CERTIFICATIONS

- Cybersecurity Foundations
- Digital Skills for Work
- Certified Computer Systems Technician (CCST)

TECHNICAL SKILLS

- Python (Automation & Scripting)
- Network Troubleshooting (LAN/WAN, TCP/IP)
- Windows OS Administration
- Hardware & Software Maintenance
- Microsoft 365 & Google Workspace
- System Backup & Recovery
- IT Documentation & Reporting
